- Sidewalk repair in Walker Farms
- Cleaned side ditch on CR 600 E to improve drainage

Sidewalk repair in Walker Farms

Crack Sealing in Walker Farms

Clean and reshape ditch on CR 650 E

What Is The Source of Water for Whitestown's System?

Whitestown's customers receive their water purchased by Whitestown Municipal Utilities (WMU), which originates from Citizens Water and is transported through WMU's distribution system.

The water supply for Citizens Water comes from several sources including White River and Fall Creek, as well as the North Branch and Eagle Creek Reservoirs. Citizens Water also supplements these supply through a number of wells for smaller areas which are not directly.

Following treatment by Citizens Water, the source water is piped to a connection point adjacent to the Whitestown Reservoir pumping station and then into the distribution system. These facilities are owned and operated by WMU.

Protecting The Water Supply for the Whitestown System

To maintain the risk of groundwater contamination, a Drinking Water Protection Program has been implemented by Citizens Water in accordance with the state's Wellhead Protection Rules and local ordinances. This program involves:

- working with local planning teams and residents;
- mapping of the drinking water protection areas;
- identifying potential sources of groundwater contamination;
- working with businesses to prevent spills and releases of chemicals; and
- preparing a contingency plan in case of contamination.

For more information on drinking water protection and wellhead protection, visit www.citizenswaterindiana.com or call Citizens Water at 317-739-8556.

You Can Help!

Decisions you make about your water usage have an impact on water quality. Here are a few suggestions for actions you can take to help keep water supplies clean and plentiful:

1. Limit lawn watering to 2-3 times per week. The best time to water lawns and other plants is between 6:00am-7:00am.
2. Don't dump soap, motor oil, fats, grease, pharmaceuticals, or other waste products into house drains, storm drains, creeks, or streams.
3. Sweep driveways, sidewalks, and steps rather than hosing them off. Turn off garden hoses when not in use.
4. Check for leaks in your plumbing to save water and money.
5. Wash vehicles in grassy areas to prevent runoff into storm sewers.
6. Add rain barrels to your downspouts and incorporate rain gardens to your yard to collect water for watering plants or washing vehicles.
7. Dispose of outdated or unneeded medications properly (not down the drain).

Consumer Confidence Report

WHITESTOWN

Whitestown Municipal Utilities
PROUDLY PROVIDES

For The Period of January 1 to December 31, 2019
Whitestown, Indiana

This report is intended to provide our water customers with important information about your drinking water and the efforts made by Whitestown Municipal Utilities to provide safe drinking water. As required by the U.S. Environmental Protection Agency (EPA), these drinking water reports provide information on where water comes from and how it compares to current standards.

Since all of Whitestown's water is purchased through Citizens Water, a Consumer Confidence Report from Citizens Water is also included.

If, after reading these reports, you have any questions or concerns, please contact us at (317) 739-8556.

Información Muy Importante:

Este informe contiene información muy importante sobre el agua que usted bebe. Tradúzcala: "hable con alguien que se entienda bien."

To Whitestown Customers...

On behalf of the Whitestown Town Council, we want to express our appreciation for being you as our customer. While we work diligently to provide the best service possible, we need your help too. If you see standing water on the road, a ditch or in a yard, and it hasn't been raining - please call us. If you see anyone filling up water tanks directly from a hydrant - please call us immediately. If you have a vehicle that has a potential problem, our customers help us provide better service and deliver a high-quality water product and we welcome your involvement.

water is life
and innovation makes it happen
